

I am saddened to see HOVRS's brown bag program go no more for deaf community that earns points that could be used to pay for high speed Internet service. That helps me a lot to pay my cable high speed Internet as my major communication due me being deaf and my limited income. If not for HORVS, I won't be able afford to have high speed Internet. Please do not cancel HORVS's brown bag points b/c it helps me a lot to able have high speed Internet. I beg u, please.
